CALIFORNIA STATE DEPARTMENT OF EDUCATION

This publication, which was edited and prepared for photo-offset production by the Bureau of Publications, California State Department of Education, was published by the Department, 721 Capitol Mall, Sacramento, CA 95814.

Printed by the Office of State Printing and
distributed under the provisions
of the Library Distribution Act

1981

Copies of this publication are available for $1.50 each, plus sales tax for California residents (6 percent in most counties; 6½ percent in four Bay Area counties), from Publications Sales, California State Department of Education, P.O. Box 271, Sacramento, CA 95802.

A list of other publications available from the Department can be found on page 134 of this publication.

Foreword

Section I of Article IX of the State Constitution specified that a Superintendent of Public Instruction would be elected in 1863, and the first duty assigned to the Superintendent was "to superintend the public schools of the state." The second duty was to report annually on the condition of the public schools, and the third duty spelled out what the report should contain. This edition of *California Public Schools Selected Statistics* presents the statistical picture of education for 1978-79 in much the same manner as its predecessors presented information on the public schools. However, because the collection and assembling of the data are very time-consuming tasks for a state as large as ours, the data are not as current as we might like them to be. Therefore, I believe it is my duty, as it was for those who preceded me in this office, to report on current conditions.

Public education in California is a $9 billion enterprise with four million students, 7,400 schools, and 1,043 school districts that range in size from 500 districts with only one school each to Los Angeles with more than 700 schools. Education is a labor-intensive industry, with people accounting for 90 percent of the operating budget. California schools employ more than 300,000 persons, of whom 190,000 are teachers and 14,000 are administrators.

Where does the money come from to pay for public education? Of the $9 billion school budget, 71 percent comes from the state general fund, 18 percent from local property taxes, less than 8 percent from the federal government, and 3 percent from a variety of other sources, including corporations and foundations.

In 1973 California was fifth in the nation in its percentage of per capita income allocated to education. Today, even though we spend $9 billion to educate four million students, the percent of per capita income we spend on education places our state forty-fourth among the states. The two factors responsible for this grim statistic are inflation and tax cuts. Inflation is a problem we have all had to face. The impact of inflation on schools has, of course, been enormous.

School districts have become expert over the past eight years in trimming fat out of budgets. They have had to be. The major reason is that since 1972 school districts have been allowed, under state law, to raise only a specific amount of revenue—that is, they have been under what are called "revenue limits." And school districts have been the only public agencies in California to operate under such limits.

The net result of the limits on school finance is that many school districts in California have had to exist now for nearly a decade by trimming the fat, because revenues are not allowed to keep pace with inflation. For example, the revenue limit funding for San Francisco has increased an average of only 1.2 percent per year from 1975-76 to 1979-80; for Oakland, 8.1 percent; for San Jose, 5.3 percent; for Long Beach, 6.2 percent; and for Los Angeles, 8.0 percent. Together with the unprecedented state and local tax cuts Californians have received since 1976, these limits paint a bleak picture for public schools in California.

Proposition 13 has accounted for $28 billion in tax relief so far. Tax indexing and other measures bring the total figure up to $44 billion. Naturally, schools had to cut back drastically because of these huge reductions in available revenue. Even with the state surplus bailout money, school district funds were slashed 9 percent to 15 percent in 1978-79—again, during a period of double digit inflation. Current law calls for an average 7.2 percent increase in funds for schools next year. The Governor's 1981-82 budget cuts that amount to 3.9 percent at a time in which projected inflation trends exceed that amount substantially.

School districts cannot make more budget cuts without seriously affecting the quality of education offered to our youngsters. The fat has long since gone from school budgets. We are down to the muscle at this point. We have cut taxes at such a rate in this state that we can no longer provide our schools with enough money to keep up with the cost of living—or, rather, the cost of educating our children.

It is foolish to assume that we can possibly improve the quality of education in this state when we continue to shackle local districts with such fiscal constraints.

It is foolish to believe educators can focus on quality in the classroom when yearly fiscal battles for basic school support consume time and energy.

Obviously, we cannot continue this way. And it is the responsibility of every one of us to take an active leadership role in supporting the increased revenues it will take to pay for quality education for our children.

Wilson Riles

Superintendent of Public Instruction

Preface

In this publication the Department of Education presents the quantitative aspects of the public school system in California, kindergarten through grade twelve; that is, the numbers of pupils, teachers, and schools and the expenditures of public funds needed to educate the 4.0 million children who attended California public elementary schools and high schools in the 1978-79 school year. Many of the items have been reported periodically to the Department from the beginnings of the California public school system. The trends, diversities, and disparities that are evident in these statistics are prerequisites in determining educational policy at the state and local levels.

Users of this publication should be aware that the major changes in school accounting procedures which were mandated by the 1973 edition of the *California School Accounting Manual* were implemented by the school districts in the 1974-75 school year. The changes significantly revised the existing school accounting system; procedures and accounts were established for the accounting of expenditures by object rather than by function. The purpose of the revision was to provide flexibility in combining accounts to illuminate many different kinds of programs. Caution should be exercised, therefore, when comparisons are made between the expenditure data reported for the years before 1974-75 and those reported subsequently. Income accounts were expanded in 1974-75 also, but changes do not preclude comparisons with previous years as reported in this publication.

In 1973-74 legislation became effective that altered certain trends discernible in this publication and in previous editions. Senate Bill 90/1972 and subsequent related legislation represented a major change in the traditional approach to public school finance. The laws contained general property tax rollbacks and established district revenue limits to control annual changes in district income. Mechanisms were devised to lessen the disparities of expenditures between high-wealth, low-tax school districts and low-wealth, high-tax districts, a mandate of the California Supreme Court in the *Serrano* v. *Priest* decision. The school support formula developed in Senate Bill 90 and in subsequent legislation resulted in a flow of additional state funds and property tax relief to low-wealth districts. Most high-wealth districts were granted some relief from inflation, but some were required to increase local property taxes to maintain their previous expenditure levels.

Caution should be exercised when the second period average daily attendance reported in Table IV-14 is compared with that reported in editions of this publication issued before 1977. A portion of the second period average daily attendance in 1975-76 was "capped." The Budget Act of 1975 and Senate Bill 220/1975 placed a "cap" or limit on the attendance of district-maintained adult programs and regional occupational centers or programs and on the attendance of county-maintained regional occupational centers or programs. Attendance was limited, for apportionment purposes, to 105 percent of the 1974-75 second period average daily attendance in such programs. Because attendance in these programs constitutes a portion of the second period average daily attendance reported in Table IV-14, the totals are affected. Annual average daily attendance, used as a divisor in per-pupil income and expenditure figures throughout the publication, was not affected, however, by the cap.

This publication is the result of the efforts of the staff of the Local Assistance Bureau. However, without timely reporting by school administrators throughout the state and other units within the Department of Education, it would have been impossible to compile these data, which are so important in defining where we have been in public education, where we are, and where we hope to be.

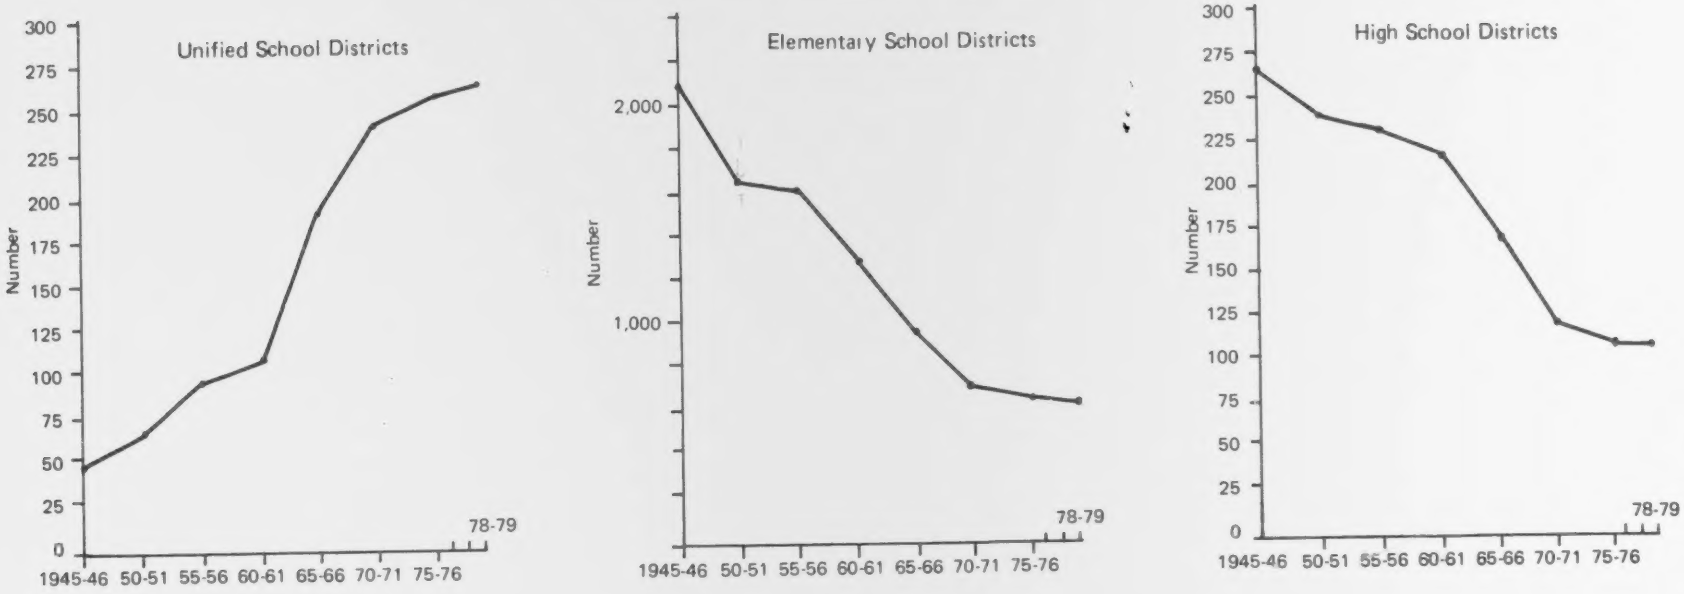
Number of California School Districts, 1945-46 Through 1978-79



Part I/District and School Units

Public education in California is organized administratively into (1) the State Department of Education, which is empowered to exercise regulatory, leadership, and service functions in implementing the state program of education; (2) intermediate units; and (3) school districts, the operation and control of which have been delegated to the people within broad limits established by the Legislature. The quality of the educational program is largely controlled at the local level by the school district governing board.

School Districts

Through the years, experience has shown that the maintenance of an effective educational program requires that a school district have (1) an adequate number of pupils; (2) a tax base that includes all of the resources of the community; (3) a coordinated educational program, kindergarten through grade twelve; and (4) inclusion of an entire community within the district.

In the 1978-79 school year, approximately two-thirds of the average daily attendance in California's public elementary and secondary schools was registered in 262 unified school districts. The one-third of the students comprising the remainder of the total state average daily attendance for kindergarten through grade twelve were enrolled in elementary school and high school districts.

Schools

Few school districts can maintain a consistent pattern of grades in all of the elementary or secondary schools they operate because of obsolete buildings or population shifts within the districts. The predominant patterns for elementary schools are kindergarten through grade eight or kindergarten through grade six. But these patterns may be modified into primary schools (kindergarten through grade three); middle schools (grades four through six); and intermediate schools (grades seven and eight) or junior high schools (grades seven through nine). Typically, secondary schools are junior high schools and senior high schools (grades ten through twelve) or high schools having grades nine through twelve. Continuation high schools provide compulsory education programs for students sixteen and seventeen years of age who are required to attend school for three hours a day unless employed. If employed, students may attend continuation high school classes for a minimum of four hours a week.

Child Nutrition Programs

National School Lunch Program. In 1978-79 a total of 8,382 public and private schools participated in the National School Lunch Program and served 1.8 million lunches daily. Almost 58 percent of the meals were served free or at a reduced price.

School Breakfast Program. In 1978-79 the rapidly growing School Breakfast Program involved 2,788 schools that served more than 346,000 breakfasts daily to children in low-income areas. Free breakfasts were provided for those unable to pay.

Special Milk Program. The Special Milk Program provides mid-morning or midafternoon nourishment for kindergarten pupils and for pupils who bring lunches from home. In 1978-79 the milk provided amounted to more than 136 million half-pint equivalents in addition to almost 379 million half-pint equivalents provided through the school lunch program.

Federal support for child nutrition programs was very evident in 1978-79. The U.S. Department of Agriculture distributed to schools foods with a fair market value of $46.5 million and charged $6.3 million for such foods. Federal cash reimbursements decreased from approximately $257 million in 1977-78 to approximately $252 million in 1978-79.

1978-79	251,923,226[a]	247,750,019[b]	499,673,245

NOTE: Includes nonpublic schools.

[a] As per the Governor's Budget.

[b] Distribution of state and local support, 1978-79:

1. State expenditures for administration and nutrition projects	$1,171,197
2. Support from general funds of school districts	46,343,177
3. Income from breakfast and lunch sales to children	74,628,748
4. Income from sales of a la carte and miscellaneous foods and milk	78,280,500
5. "Other" income	14,473,688
6. Senate Bill 120 funds [Ch. 1277 (1975)]—state meal reimbursement	31,555,436
Senate Bill 120 funds—subsidy, meals for needy	1,297,273
Total	$247,750,019

Part II/Teachers and Pupils

Teachers

In fall, 1978, approximately 180,800 full-time teachers were employed in California public elementary schools and high schools. The number of teachers decreased approximately 2,800 from the number reported in fall, 1977. Teachers in unified school districts were paid an average salary of $17,876 per annum; teachers in elementary school districts, $17,035 per annum; and teachers in high school districts, $18,750 per annum.

Superintendents

In fall, 1978, a total of 282 superintendents were employed in unified school districts, 450 in elementary school districts, and 93 in high school districts.

Full-Time-Equivalent Employees

In fall, 1978, California school districts employed approximately 14,830 full-time-equivalent administrators, 13,980 full-time-equivalent pupil services employees, 199,930 full-time-equivalent teachers, and 143,080 full-time-equivalent classified employees. These numbers translate into ratios of 7.4 administrative employees, 7.0 pupil services employees, and 71.6 classified employees per 100 teachers. (Full-time equivalents include full-time, part-time, and prorated portions of employee time.)

Pupils—Public Schools

The total enrollment in public elementary schools and high schools in fall, 1978, decreased 383,094 from fall, 1977. Enrollment in classes for adults decreased 267,396. The decrease is attributable, in part, to the reduction of funds for adult schools resulting from the implementation of Proposition 13. Enrollments in elementary grades declined 3.1 percent; in high school grades, 2.1 percent; in special education and "other" classes, 3.9 percent; and in adult classes, 39.0 percent.

Pupils—Private Schools

Enrollment in private elementary and high schools in California increased 25,692 in comparison with spring, 1977. In spring, 1978, a total of 477, 013 pupils were enrolled in 3,165 nonpublic schools. Of the 477,013 pupils enrolled, a total of 376,210 (approximately 79 percent) were enrolled in church-affilitated private schools.

Class Size; Pupil-Teacher Ratios

In 1978-79 the average class size in grades one through three increased slightly—from 27.5 in 1977-78 to 27.6 in 1978-79. The pupil-teacher ratio in grades four through eight decreased from 26.5 to 26.3, the lowest ratio reported during the past nine years.

Days of Instruction

A minimum of 175 days of instruction must be offered by school districts in California unless some unusual circumstances intervene. In 1978-79, two districts offered 179 days of instruction, and 57.5 percent of the districts operated at the minimum of 175 days.

Table II-1 A

Average Teacher Salaries in Unified School Districts, Kindergarten Through Grade Twelve, 1978-79

Average daily attendance	Number of teachers	Average salary
25,000 and over	60,991	$18,306

Total	4,381	
Average	–	$16,102

Table II-1 E

Combined Average of Teacher Salaries in All School Districts and Offices of County Superintendents of Schools, 1974-75 Through 1978-79

Year	Elementary level		High school level		All levels	
	Number of teachers	Average salary[a]	Number of teachers	Average salary[a]	Number of teachers	Average salary[a]
1978-79	110,747[b]	$17,370[b]	68,871[b]	$18,250[b]	180,618	$17,759
1977-78	–	–	–	–	183,470[c]	17,149
1976-77	–	–	–	–	182,594[d]	16,004
1975-76	112,122	14,927	75,547	15,817	187,669	15,285
1974-75	112,234	13,746	75,218	14,595	187,452	14,087

[a] The combined average of teacher salaries is obtained by dividing the total number of teachers into the total amount of salaries.

[b] These data are estimated. All other data are actual. Data for 1977-78 and 1976-77 are not available because of change in reporting format.

[c] Does **not** include teachers in 22 school districts that did not respond to the survey (approximately 1.3 percent of all teachers).

[d] Does **not** include teachers in 12 school districts that did not respond to the survey (approximately 1.2 percent of all teachers).

Table II-9

Number of Full-Time-Equivalent Employees in California School Districts as of November, 1978

Classification of districts	Number of districts	Units of average daily attendance (1977-78 fiscal year)	Number of full-time-equivalent employees					
			Certificated employees				Classified employees	Total
			Administrative	Pupil services	Teachers	Subtotal		
Unified	262	3,092,698	10,099.0	9,777.1	135,848.3	155,724.4	96,252.4	251,976.8
Elementary (101 a.d.a. and over)	503	848,278	2,880.2	1,581.1	36,692.5	41,153.8	29,711.6	70.865.4
High school (301 a.d.a. and over)	87	487,792	1,216.8	2,032.2	20,017.6	23,266.6	12,278.1	35.544.7
Common administration	42	152,234	480.9	581.2	7,074.9	8,137.0	4,665.1	12,802.1
Subtotal, districts reporting	894	4,581,002	14,676.9	13,971.6	199,633.3	228,281.8	142,907.2	371,189.0
Estimates for districts not required to report:								
Elementary (under 101 a.d.a.)	141	6,821	141.0	0.0	282.0	423.0	151.0	574.0
High school (under 301 a.d.a.)	8	1,831	8.0	4.0	16.0	28.0	24.0	52.0
Subtotal	149	8,652	149.0	4.0	298.0	451.0	175.0	626.0
Total	1,043	4,589,654	14,825.9	13,975.6	199,931.3	228,732.8	143,082.2	371,815.0

Table II-10

Ratios of Full-Time-Equivalent Personnel to Full-Time-Equivalent Classroom Teachers in California Public Schools as of November, 1978

Classification of districts	Number of districts	Average daily attendance (1977-78 fiscal year)	Ratio (per 100 teachers)		
			Administrative	Pupil services	Classified
Unified	262	3,092,698	7.4	7.2	70.9
Elementary	503	848,278	7.8	4.3	81.0
High school	87	487,792	6.1	10.2	61.3
Common administration	42[a]	152,234	6.8	8.2	65.9
Total	894	4,581,002	7.4	7.0	71.6

[a] Twenty-one ratios were reported for common administration districts. Each ratio was obtained from the combined data of an elementary school district and a high school district.

Table II-11

California Public School Enrollments, Fall, 1977, and Fall, 1978

Grade or class	Fall 1978	Fall 1977	Increase or decrease between fall, 1977, and fall, 1978	
			Number	Percent
Graded enrollment				
Kindergarten	275,393	286,007	–10,614	–3.7
Grade one	291,757	315,544	–23,787	–7.5
Grade two	305,439	324,770	–19,331	–6.0
Grade three	319,833	312,914	6,919	2.2
Grade four	309,192	299,363	9,829	3.3
Grade five	296,721	300,269	–3,548	–1.2
Grade six	298,536	306,374	–7,838	–2.6
Grade seven	309,292	326,945	–17,653	–5.4
Grade eight	322,474	343,366	–20,892	–6.1
Enrollment, kindergarten through grade eight	2,728,637	2,815,552	–86,915	–3.1
Grade nine	350,186	356,094	–5,908	–1.7
Grade ten	347,841	361,258	–13,417	–3.7
Grade eleven	328,255	335,979	–7,724	–2.3
Grade twelve	286,679	288,117	–1,438	–0.5
Enrollment, grades nine through twelve	1,312,961	1,341,448	–28,487	–2.1
Enrollment, kindergarten through grade twelve	4,041,598	4,157,000	–115,402	–2.8
Nongraded enrollment				
Special education classes:[a]				
Elementary	68,003	69,968	–1,965	–2.8
Secondary	30,388	30,995	–607	–2.0
Total	98,391	100,963	–2,572	–2.5
Other special classes:				
Elementary	315	1,580	–1,265	–80.1
Secondary	1,254	1,512	–258	–17.1
Total	1,569	3,092	–1,523	–49.3
Summary, special education classes and other special classes:				
Elementary	68,318	71,548	–3,230	–4.5
Secondary	31,642	32,507	–865	–2.7
Total	99,960	104,055	–4,095	–3.9
Continuation classes	46,409	42,610	3,799	8.9
Adult classes	417,820	685,216	–267,396	–39.0
Grand total, all grades and classes	4,605,787	4,988,881	–383,094	–7.7

[a] Special students served on a "pull-out" part-time basis have been reported with the graded enrollment only.

Table II-12

California Private School Enrollments, 1976 Through 1978

Grade or class	All schools			Church-affiliated schools			New schools		Schools closed in prior years[a]
	1978	1977	1976	1978	1977	1976	1978	1977

NOTES: Pupil-teacher ratios in districts with fewer than 101 units of a.d.a. and grades seven and eight of junior high schools maintained by high school or unified school districts were excluded.

Numbers and percents in italics are totals for the pupil-teacher ratio range and are followed by data for the individual ratios within the range.

Average Pupil-Teacher Ratios
Grades Four Through Eight

1978-79—26.3	1975-76—27.0
1977-78—26.5	1974-75—27.1
1976-77—26.7	1973-74—27.3

Part III/Textbooks and Public School Revenues

Textbooks

California is the only state in the United States that prints its own textbooks and provides them without cost to school districts operating kindergarten or grades one through eight. At the high school level, textbooks are purchased directly from the publishers by the school district. The State Board of Education determines which elementary textbooks will be used and makes the required adoptions. However, in determining which textbooks it will adopt, the Board gives full consideration to the recommendations made by the Curriculum Development and Supplemental Materials Commission. Established by law in 1927, the commission is composed of outstanding educators appointed primarily by the State Board of Education but also by the Legislature and the Governor.

Originally, the state provided a single textbook in each subject for each grade; later, supplementary textbooks were added. More recently, a variety of basic and supplementary textbooks have been provided to accommodate pupils of varying abilities and social backgrounds. Special materials have also been provided to help teachers use textbooks effectively.

Recent legislation authorizes the issue of instructional materials such as films, tapes, flash cards, kits, phonograph records, graphs, charts, and multimedia systems in addition to the textbooks authorized by previous legislation. School districts were permitted to order such items for use in the 1974-75 school year and in following years. Tables III-1A through III-1C present data on textbooks.

Revenues

The three sources of revenue for public school support are characterized as local, state, and federal.

State revenues are apportioned to school districts for general use and categorical or specified use. In addition, state revenues are committed to teacher retirement benefits, liquidation of state school building aid bonds, and purchase of elementary school textbooks. Federal revenues are largely directed to categorical use in support of specific programs (Table III-3) and may be transmitted directly to school districts or indirectly through the State Department of Education or through offices of county superintendents of schools.

Property taxes had provided most local revenues in previous years. However, with the passage of Proposition 13 and the resulting cut in property taxes, the greater part of public school support had to be provided by the state. As a result, tables that in previous years had presented data on assessed valuations and tax rates as well as school district revenue limit elections, bond elections, and lease agreement elections have been replaced. Tables III-6 through III-13 present data on base revenue limits, total revenue limits, and block grants for public school districts in 1978-79.

Table III-1 A

Number of Textbooks in State Adoption for Kindergarten Through Grade Eight in California Public Schools, by Selected Years

Year	Number of textbooks	Year	Number of textbooks
1940-41	59	1965-66	437
1945-46	85	1970-71	753
1950-51	137	1971-72	801
1955-56	195	1972-73	803
1960-61	305	1973-74	845

Table III-1 B

Number of Instructional Materials in State Adoption for Kindergarten Through Grade Eight in California Public Schools

Year	Number of instructional materials
1974-75	1,344
1975-76	5,867
1976-77	8,201
1977-78	8,744
1978-79	9,129
1979-80	11,510

Table III-1 C

State General Fund Expenditures for Elementary Textbooks in California

Year	General Fund expenditures	Year	General Fund expenditures
1958-59	$8,429,926	1969-70	$22,303,993
1959-60	9,474,177	1970-71	18,304,478

NOTE: Data include support for community college districts for 1956-57 through 1973-74 but not for 1974-75 through 1978-79.

[a] State revenues (Governor's Budget and Controller's Report) include apportionments to school districts, debt service on school construction bonds, teacher retirement, textbooks, and vocational education.

[b] Local revenues (Controller's Report) include General Fund taxes, bond interest and redemption taxes, community college tuition, high school tuition, and taxes levied for offices of county superintendents of schools.

Table III-6

Distribution of Base Revenue Limits in California Unified School Districts, 1974-75 Through 1978-79

Base revenue limit per unit of a.d.a.	Number of districts, by fiscal year					Estimated foundation program a.d.a., 1978-79
	1978-79	1977-78	1976-77	1975-76	1974-75	
$1,740 or more	26					40,787
1,700–1,739	6					6,011
1,660–1,699	6					69,710

*The "base revenue limit per unit of a.d.a." and the "declining enrollment adjustment per unit of a.d.a." are only two of the factors used to calculate the "total block grant after deficit factor per unit of a.d.a." Therefore, the base revenue limit and the declining enrollment adjustment, when added together, do not equal the total block grant.

Part IV/Public School General Fund Expenditures

School district budgeting and accounting systems include a variety of funds, but the General Fund is common to all operating school districts. Additional funds maintained by some school districts include the Bond Interest and Redemption Fund, the Building Fund, the Special Reserve Fund, the State School Building Aid Fund, the Cafeteria Fund or Account, the Child Development Fund, and the Development Center for Handicapped Pupils Fund. The *California School Accounting Manual* provides for the uniform identification and classification of all expenditures of school districts and is consistent for the several funds.

This publication presents General Fund expenditures only. The State Controller's publication, *Annual Report: Financial Transactions Concerning School Districts of California,* includes income and expenditure data for all funds.

The 1973 edition of the *California School Accounting Manual,* implemented in the 1974-75 school year, incorporated extensive revisions in the school accounting system. The previous practice for accounting of expenditures by function was overhauled in favor of accounting by object. This approach allows greated flexibility because object accounts may be combined in any number of ways to illuminate many different kinds of programs.

The accounting manual provides for seven major General Fund object of expenditure classifications: (1) 1000—**Certificated Salaries;** (2) 2000—**Classified Salaries;** (3) 3000—**Employee Benefits;** (4) 4000—**Books, Supplies, and Equipment Replacement;** (5) 5000—**Contracted Services and Other Operating Expenses;** (6) 6000—**Capital Outlay;** and (7) 7000—**Other Outgo.** Each of these major classes has several subordinate classes.

The Total Current Expense of Education as amended by the 1973 manual is the sum of major object of expenditure classifications 1000 through 5000, excluding expenditures in each of the classifications for community services, food services, and facilities acquisition and construction. Food Services, Community Services, and Capital Outlay are not considered part of Total Current Expense of Education because of the variation of expenditure in these classes among school districts; however, such expenditures are added to the Total Current Expense to yield a Total Expenditure amount.

The tables in Part IV present dollar amounts for the several objects of expenditure, the amount per unit of average daily attendance, and the percent of total expenditures each amount represents. Table IV-14 presents similar and related data for individual school districts. Tables IV-8 through IV-12 illustrate the manner in which the new objects of expenditure may be combined to yield expenditures by program.

Table IV-1 A

General Fund Expenditures in All California School Districts

(Total current expense of education and total expenditures per unit of a.d.a.)

Fiscal year	Unified school districts		Elementary school districts		High school districts		Community college districts		Total, all districts[a]

NOTES: "Current expense of education" includes expenditures of classes 1000 to 5000, inclusive, in the *California School Accounting Manual* (less Food Services, Community Services, and Facility Acquisition) beginning with the 1974-75 school year.

"Total expenditures" includes expenditures of classes 1000 to 6000, inclusive, in the *California School Accounting Manual,* beginning in 1974-75.

[a] Figures for 1974-75 through 1977-78 do not include community college districts.
